COURSE DESCRIPTION (EN/L1 [if taught in L1])				
Content <p>The course aims to describe the basic concepts of Sustainable Development, also through its historical evolution. In particular, attention will be focused on the Sustainable Development Goals (SDGs) of the United Nations "Agenda 2030" plan. The course will focus on the role of universities and higher education institutes in achieving these goals, providing skills and knowledge, but above all, instilling in future generations, behaviours and mindsets which naturally align towards sustainable development.
