COURSE DESCRIPTION (EN/L1 [if taught in L1])

Content

The aim of this course is to develop general and specific competencies of students important for their professional and personal development. Students will be presented with basic knowledge of the fundamental concepts of sustainable development pedagogy, and encouraged to develop ecological awareness, critical and creative thinking, and awareness of the connection between the natural and social environment. Through the course, students will develop, through research and constructivist approaches, the abilities of reflective practitioners in the theoretical design and educational application of the content of the concept of sustainable development and education for sustainable development in the educational process. Cilj ovoga kolegija je razvijanje općih i specifičnih kompetencija studenata značajnih za njihov profesionalni i osobni razvoj. Studentima će se prezentirati osnovna saznanja o temeljnim pojmovima pedagogije održivog razvoja, poticati razvoj ekološke svijesti, kritičkog

i kreativnog mišljenja te svijesti o povezanosti prirodnog i društvenog okružja. Kroz kolegij će se kod studenata razvijati, putem istraživačkih i konstruktivističkih pristupa, sposobnosti refleksivnog praktičara u teorijskom osmišljavanju i odgojno-obrazovnoj primjeni sadržaja koncepcije održivog razvoja i odgoja i obrazovanja za održivi razvoj u odgojno-obrazovnom procesu.
