

ECGIC 2026

IV Economy for the Common Good
International Conference

Transforming towards a Fair and Sustainable Economy. Shared Responsibility of Science and Practice

10 to 12 June 2026

Amberg, Bavaria

Inter- and transdisciplinary exchange
between theory and practice

What could a fair and sustainable economy look like?

ECGIC 2026 brings together international voices from **science, business and civil society** to discuss real-world transformation processes in the context of economic, ecological, social and technological change. Engage with **peer-reviewed research**, connect across sectors and disciplines, and co-develop **actionable pathways for transformation**.

Topics

- Boundaries & Post-Growth
- Agriculture & Food
- Consumer Behavior
- Common-Good-Oriented Management Strategies
- Regional Transformation & Resilience
- Education & Research
