

**EUPeace**  
European University for Peace,  
Justice, and Inclusive Societies

# Why should you choose to do a school internship with the EUPeace Alliance?

EUPeace is a network of universities focused on working, in common, towards three goals:

- **PEACE** – Dealing with existing conflicts by civil means without violence or the threat of violence.
- **JUSTICE** – A state of recognition and of a distribution of goods that allows for the equal opportunity and fair access to education of all members of a society to participate in public life and empower future educators to create inclusive learning environments.
- **INCLUSIVE SOCIETIES** – Inclusion offers a mutual sense of belonging among their members in all their diversity, by offering effective, non-discriminatory means of participation and involvement to cultivate classrooms where diversity is embraced.

An internship with EUPeace is more than just practical experience – it is a transformative experience designed for future educators and an opportunity to grow personally and professionally in an international environment. By teaching in European schools, students will gain valuable insights into different educational systems, develop intercultural competencies, and enhance their language skills. This internship is a unique opportunity to bridge theory and practice, equipping aspiring educators with the tools needed to inspire the next generation in a globally connected world.

## Shape the future of education with EUPeace!

Why should you, as a student teacher, do a school internship with EUPeace?

1. You can actively contribute to the EUPeace mission of fostering peace, justice, and inclusion.
2. You will gain valuable insights into different educational systems, develop intercultural competencies, and enhance your language skills.
3. Excellent opportunity to grow personally and professionally in an international environment.
4. Better adaption to diverse working environments in multinational classrooms.
5. Support by staff at your university and within the EUPeace network to help you find an internship placement at a school in Europe.
6. The recognition of your internship is guaranteed.
7. You will be supported before, during and after your internship by your home university, the partner university and/or the school.
8. Benefit from the network regarding opportunities to connect with fellow students, for example through the EUPeace Buddy System.
9. Under certain conditions, financial support might be available (e.g. through Erasmus+).
